

STATE OF NEW JERSEY  
EXECUTIVE DEPARTMENT

*Proclamation*

WHEREAS, May is designated as National Osteoporosis Awareness and Prevention Month and the State of New Jersey recognizes bone health as a health priority for persons of all ages; and

WHEREAS, osteoporosis, "the silent disease," is a serious condition in which bones become thin, brittle, and easily broken, which results in half of all women and 20 percent of all men having an osteoporotic fracture in their lifetime; and

WHEREAS, osteoporosis can have devastating effects, impairing an individual's ability to walk unassisted and often resulting in prolonged or permanent disability, institutionalization, or death; and

WHEREAS, osteoporosis is largely preventable, for most people, through healthy behaviors such as a balanced diet rich in calcium and vitamin D, weight-bearing exercise, a healthy lifestyle without smoking or excessive alcohol, and bone density testing and medications when appropriate; and

WHEREAS, being aware of risk factors for osteoporosis and taking actions to maintain healthy bones are the keys to preventing osteoporosis. The State of New Jersey Department of Human Services provides ways in which residents can practice bone-healthy behaviors, including exercise and education programs like Project Healthy Bones, Move Today, Otago, Tai Ji Quan: Moving for Better Balance, and A Matter of Balance: Managing Concerns About Falls; and

WHEREAS, the New Jersey Interagency Council on Osteoporosis is dedicated to the development, implementation, and evaluation of a comprehensive osteoporosis prevention and education program for the benefit of New Jersey residents and has partnered with public and private entities to achieve its goals; and

WHEREAS, it is fitting to support the goals of Osteoporosis Awareness and Prevention Month to increase public awareness of this disease and its prevention;
